STRCC Members,

I didn't have time to write up a newsletter last month, so consider this the monthly newsletter. There is new news regarding the status of the runway, Rookie races this weekend, and a training night.

It finally dried up enough that workers were able to smooth the runway and get the petra mat back down. So the flying is back on! Thanks to all of you who worked on getting the runway back in order! I will get something in the next newsletter on the runway.

Rookie races will be held this weekend as last Sunday was Mothers day. So if you are interested in racing, come on out for the heats. I imagine that Jerry Terhune has been the one mowing and the field looks great! Hope to see some of you at the field. Races will get started at the usual time around 1:30 P.M.

There have been some inquiries about training from various people. Joe Sudduth and I will be at the field on Tuesday nights to try and get those interested in flying, up in the air. I will try and be at the field between 6:00 to 6:15. Other members who want to come out are more than welcome. However, please remember to give people who want training priority on this night. So for those of you who are interested, please give Joe (817) 572-2091 (jsudduth@flash.net) or Bruce (817) 483-8223 (brucemarsha@sbcglobal.net) a call or e-mail.

For those of you that are interested in electric flying, I was able to find out that the LM Aeromodelers will be flying at the LMRA facility. See the note below.

The Aeromodelers will hold an indoor flying session from 10 a.m. - 6 p.m. May 21 at the twin gym in the northeast corner of the LMRA facilities. This is an open session for all pilots who wish to fly or simply observe radio controlled flight. A landing fee will be charged for the session (\$5 LMRA members, \$7 non- members). Spectators are always welcome at no charge. Come watch Wanda the flying fish, Gee Bee R1, WWI Fokker DR1, WW2 P51 Mustang, orinthopters (mechanical birds) and other unique aircraft. For more information contact Ed Couch at 817-777-6478 or Tom Blakeney at 817-777-1241.
